

CAREGIVERS SUPPORT GROUP

The Oasis at Dodge Park would like to invite you, the spouse, and/or the caregivers of individuals with Alzheimer's disease to take part of our monthly support groups.

The caregivers support group is open to all of Oasis customers and family members and to the general public. The support group meeting is **FREE**. Light supper will be provided. Activity and supervision for memory impaired individuals will be provided for **FREE** by our activity personnel during the meeting upon request.

The caregivers support group is meeting on the second Tuesday and third Wednesday of each Month. The meeting is taking place at Dodge Park Rest Home which is located at 101 Randolph Road, Worcester,

MA between the hours of 6 p.m. and 8 p.m. Participation in a support group can be an empowering

experience. The groups are designed to help members feel better prepared to cope with their unique situation. Support group members report feeling less alone, more able to confront their daily problems, and more hopeful about their future.

Bringing LIFE to those we serve

102 Randolph Road • Worcester, MA 01606

OASIS *at Dodge Park!*

MISSION

The Oasis at Dodge Park specific purpose is to be recognized by consumers and industry as the most professional, ethical and highest quality memory care facility for the elderly. We are committed to listening and responding to the needs of the residents, their family members and employees.

We will go the extra mile when assistance is required by the public, the residents and their family members. We embrace an entrepreneurial spirit, which does not tolerate waste or bureaucracy and reward achievement.

Since 1967 we have proudly served the Worcester community. We offer our unique family of services including the rest home, respite care, in home care and the adult day care – the Day Club. We provide a higher level of care than traditional assisted living.

Our residents enjoy independence and engaging outing and events, all in a home like setting, unlike nursing homes.

DRIVING PRINCIPALS

Four principle goals drive owners, Mr. Herlinger and Mr. Shalev, in the past 25+ years in the field to create LIFE at their facilities, especially in small setting environments:

1. Help the individual maintain or improve function and engage in daily activities to the extent possible and as the disease progresses;
2. Restore or compensate for functional decline due to an acute insult such as an injury or traumatic health episode such as a stroke, or fall which occurs over and above the dementia;
3. Provide family caregivers with education and knowledge about the disease and specific skills to provide a supportive environment at home and reduce excess disability
4. Enrich staff ability and skills to properly support the emotion, social, and physical ability of our residents
